

HAFIZ MUHAMMAD AHMED

SOFTWARE ENGINEER

PROFILE

I am a dedicated Software Engineering student with practical experience in developing websites and Java-based applications. I have created user-friendly and responsive websites using HTML, CSS, and JavaScript, and have built console-based Java projects, including a basic text editor. I am a fast learner with a strong passion for coding, problem-solving, and software development. I am eager to apply my technical skills and academic knowledge to real-world projects and professional environments, contributing effectively to any team or organization.
